

CURTAIN TUTORIAL

I MAKE IT
YOU MAKE IT

Patterns By Stefanie Fail

PREPARE YOUR MEASUREMENTS

Length: Measure your window and determine how long you want your final curtain to be. Then add 6 inches to that number. That's the length of fabric you need to cut.

Width: Determine how wide you want your curtain to be. Remember that you probably want it wider than your window frame so that it ruffles a bit. Add 1.5" to that number. This is the width of the fabric you need to cut.

MAKING THE CURTAIN

1. Cut your fabric to the dimensions you've calculated.

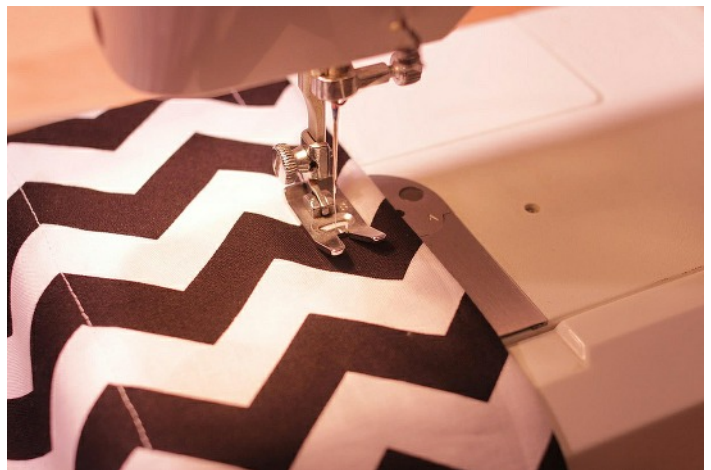

2. *Sides:* Fold and press the side of your curtain under $\frac{1}{4}$ ". Fold up another $\frac{1}{4}$ " and press again. Now stitch along this side. Repeat for the other side of the curtain.

3. *Bottom*: Fold and and press the bottom of your curtain $\frac{3}{4}$ ". Fold and press another $\frac{7}{8}$ ". Stitch close to the first fold you made, creating a hem.

4. *Top*: Fold and press the top of the curtain $\frac{1}{4}$ ". Fold up another 3.5" and press. Now stitch along the first fold.

5. Now stitch $\frac{3}{4}$ " from the top of the curtain.

ABOUT THE TUTORIAL

This tutorial is created by Stefanie Fail. For more sewing patterns visit my shop, I Make It You Make It at [imakeityoumakeit.etsy.com](https://www.etsy.com/shop/Imakeityoumakeit). You can also find more free tutorials in sewing, knitting, crochet and jewelry-making on my blog at [blog.a-common-thread.com](https://www.a-common-thread.com). Any curtains you make from this pattern can be for personal or commercial use. Feel free to sell your curtains! However, I do ask that you don't distribute this pattern. Please link to my blog instead. Thanks!
